Comments La Champas are very small, though not too small (ca. 2 cm diam). Urua Ib Y-4-b w/ 9 pieces, 15 bodies, all same vessel. Urua Ia, Y-4-b rim has exterior incision. Uruas in decent condition for this site: only 7 are paste-based. Sherds mostly in good shape, little erosion in most taxa (San Joaquin and Cacaulapa bodies most eroded). Some spalling in all taxa, but not prominent. Jocomico: I sherds heavily altered in color by heat or misfiring, also some misfiring in crazing, bubbling. Barbaleta lips are abraded.

Comments <i>San Joaquin bodies, jars: 440 unaltered; 91 darkened interiors; 58 darkened exteriors; 20 dark through; 4 faint surface discoloration both sides; 4 pitted, as though temper is leached out. Virtually impossible to tell bowls & jars: only 1 chud in sample is clearly a bowl; it is banded on interior. Jars w/ discoloring throughout: 4 are porous w/ small holes, as though fine temper is missing & A total of 1,542 shards were not separated by discoloration. All San Joaquin looked a bit gray -- the paste surface colors were taken</i>		Temporal Info: 1. 2. 3. Probable Possible Evidence 1 Evidence 2 Evidence 3
